

CHRONEXT

CHRONEXT (www.chronext.de) is the online platform for first-class service for the luxury watch segment. From the purchase, maintenance and reconditioning of the finest watches to finding absolute rarities by our watchhunters, the customer will find everything his heart desires.

The CHRONEXT Group (AG) is internationally positioned with branches in Zug (Switzerland), Cologne, Munich, Berlin, Hamburg and London. Since our foundation in 2013, we have been able to attract a list of well-known investors with our 110+ strong team. In order to grow even further, we need your support in our office in Cologne as:

Fulfillment Software Engineer - Developer (f/m)

As a Fulfillment Software Engineer at CHRONEXT you will work in an agile development team in the area of fulfillment. You have the technical responsibility that the fulfillment processes of customer orders are optimally supported by the flexible use of standard and individual software.

Your responsibility:

- **Development.** You are responsible for the design and development of a cloud-based microservice oriented technical solution for the fulfillment of customer orders.
- **Architecture.** Beyond your developer skills, you define the specific architecture together with your team on the basis of architectural principles and technical framework conditions.
- **Delivery.** Together with your agile team you are responsible for the delivery of highly available, maintainable, scalable and high-performance backend systems.
- **Cooperation.** You promote cooperation and communication within your team and you lead necessary decisions efficiently. You work closely together with the product management for clarifying technical aspects.

Your qualifications:

- **Experience.** You bring many years of professional experience in software development of backend systems and experience with agile development methods.
- **Technology.** You have experience in object-oriented programming with PHP, the relevant frameworks, (No)SQL databases and REST APIs.
- **Quality.** You are used to test-driven development and know test frameworks.
- **Language.** You speak English fluently - good German skills are a plus.

This is what we offer you:

- **Team.** A highly motivated international team with a flat hierarchy and a relaxed atmosphere that enjoys optimizing fulfillment processes every day.
- **Technology.** A state-of-the-art technology stack including PHP 7.2, Symfony 4, Vue.js, CI / CD, TDD, Microservice architecture and its operation in the AWS cloud.
- **Tools.** Whether ergonomic keyboard or apple fanboy, you can choose your tools.
- **Personal development.** You'd like to learn a new technology for your next challenge? We also share our know-how in regular Dev Academy sessions within our team and keep our knowledge up to date by participating in conferences and Meetups, among other things.
- **Goodies.** Fun events and trips and all the typical start-up goodies like a weekly team lunch, fresh fruit and vegetables, drinks, after-work beer etc.

Interested? We are happy to answer all your questions!
Please send us your application documents stating your salary expectations and earliest possible starting date to: careers@chronext.com
